

# *Working for sustainable and inclusive development*

**C**limate disruptions have led a number of countries to rethink their development models

Expertise France assists its partners, administrations and local authorities in the definition and implementation of their sustainable development policies.

Through their projects, Expertise France's teams contribute to strengthening the resilience of rural and urban territories, through innovative operating methods and an inclusive approach.

## A FEW OF OUR PROJECTS

### EUROCLIMA+ : FORESTS, BIODIVERSITY ET ECOSYSTEMS

18 Latin American countries

In the context of a call for projects for a total of € 7 million, the project aims to identify and finance **innovative sustainable forest management measures**, in order to contribute to sustainable development and the resilience of Latin American countries to climate change.

- Coordination of all the activities of the programme's sectoral component "Forests, Biodiversity and Ecosystems", in addition to the identification and financing of innovative projects
- Capitalisation and strengthening of the dialogue at regional level on successful experiences, with a view to their replicability
- Institutional capacity building for the integration of forest management, biodiversity and ecosystems into public policies and actions

### AFRICA4CLIMATE

National governments and local authorities of Gabon, Kenya, Uganda and Benin

Africa4Climate supports four target countries by providing technical assistance to national and decentralised contracting authorities for the **definition and implementation of low-carbon and climate-resilient development strategies**.

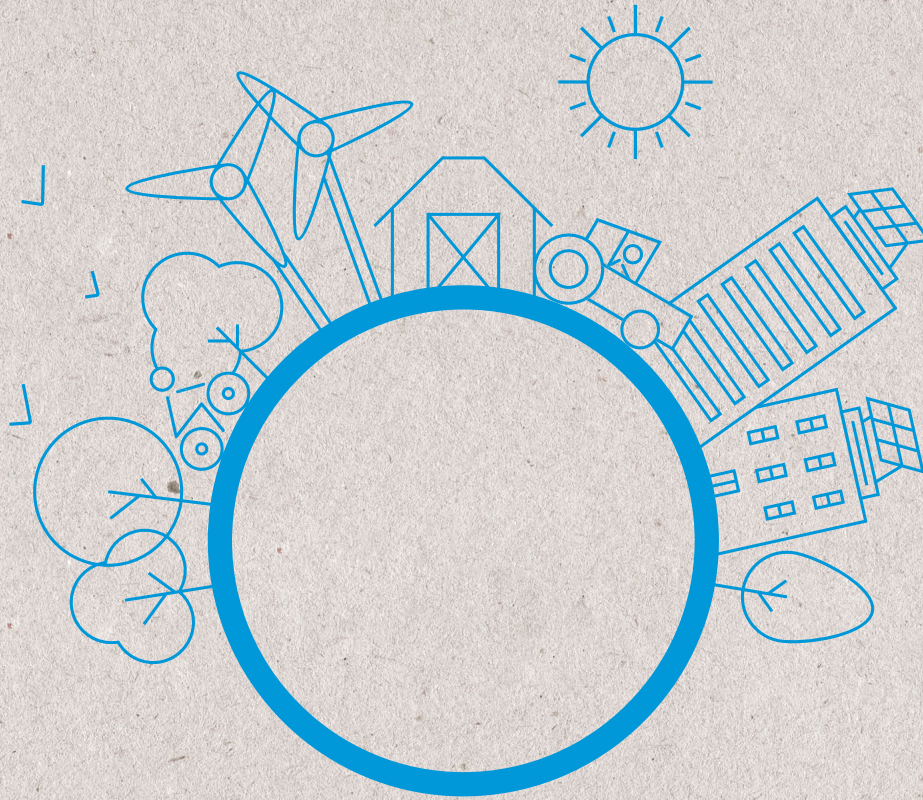

- Coordination of the project's governance framework, and of the team of international and national experts
- Identification of partners and formulation of activities on the basis of national and local priorities
- Support to the City of Kampala for the definition and implementation of its Territorial Climate-Energy Plan

### FRANCO-BAHRAINI INITIATIVE FOR URBAN PLANNING

General Directorate of Urban Planning – Ministry of Works, Municipalities Affairs and Urban Planning

The project, for a total amount of € 8.4 million, aims to provide technical assistance to the General Directorate of Urban Planning (GDUP), in order to **strengthen its key role as a coordinator for issues related to the island's territorial planning**.

- Reorganisation and capacity building at GDUP in terms of governance
- Definition and implementation of a national strategy for urban planning and land use
- Development of a Master Plan: realisation and implementation of the strategy for a flagship project in a coastal area.

## EXPERTISE FRANCE KEY FIGURES

**€ 191 Mn**  
VOLUME OF ACTIVITY

**100**  
PARTNER COUNTRIES

+ THAN **500** PROJECTS

+ THAN **350**
