

We are the acceleration bridge between Europe, Latin America and the Caribbean

The EU-LAC Digital Accelerator works as a multi-sided platform that connects digital challenges from large corporations with solutions from startups and innovative SMEs, and supports established partnerships by providing tailored acceleration services to reach an investment ready stage.

Goals

Establish high potential digital areas for collaboration opportunities jointly with EU and LAC countries.

Facilitate the connection between corporate challenges and innovative solutions coming from startups and SMEs.

Develop sound joint business cases through the provision of acceleration services tailored to the needs of each partnership.

Connect digital projects with relevant public and private investors to financially enable them.

Are you ready to cross the Atlantic?

Take the Open Innovation Bridge!

EU-LAC

Digital Accelerator

Building bridges to accelerate Digital Transformation in Europe, Latin America and the Caribbean

Corporates

Face digital transformation through open innovation

We are looking for corporates and leading companies with an established business willing to face the challenges of Digital Transformation through open innovation and collaboration with startups. We connect them with selected startups that match the challenges to improve, renovate and/or diversify, leveraging the opportunities of digital technologies.

Startups

Connect with venture clients internationally

We are supporting startups, scaleups and SMEs with innovative digital-based solutions, providing finished products or services and willing to expand internationally.

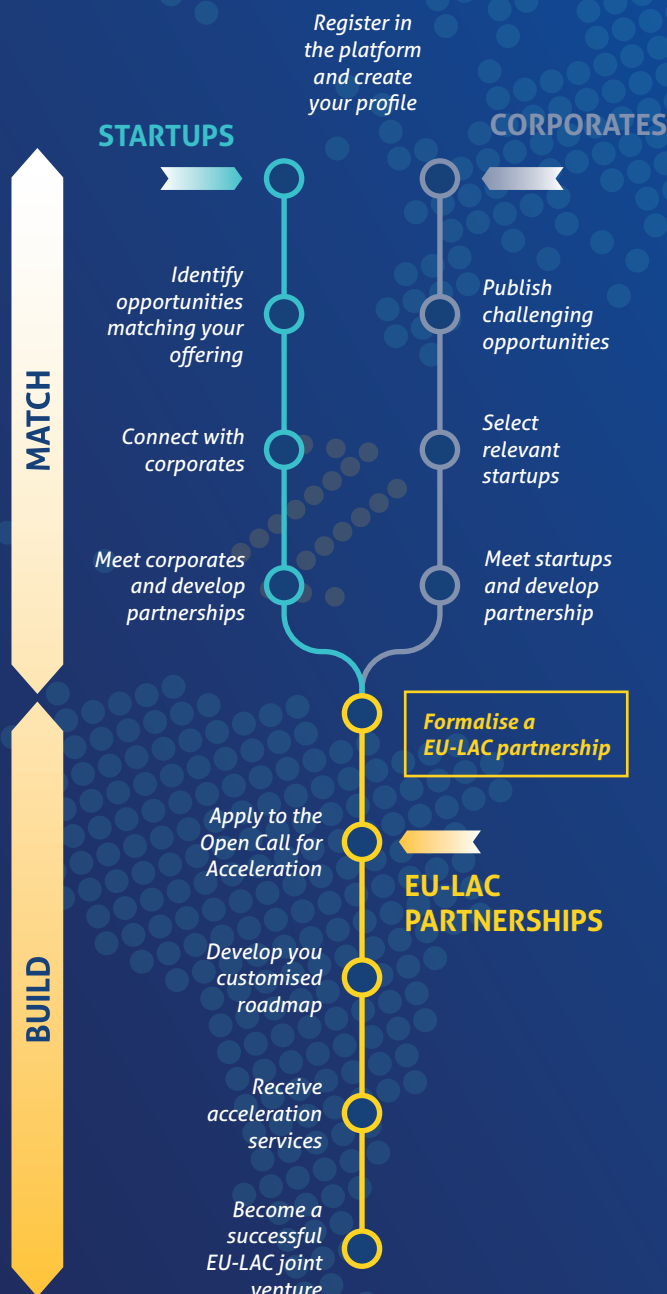

We connect them with venture clients to develop joint collaborations, supported by high-impact acceleration services valued up to 40k€.

Investors

Access to investment opportunities

We connect investors with selected deal flow of investment opportunities in innovative high-potential digital businesses.
